Photographic Release

In our office we like to photograph our patients to aid Dr. Titensor in determining dental problems and the solutions/treatment options for them. Dr. Titensor sometimes uses the photographs, with the patients permission, to teach dentists all over the world how we create beautiful smiles for our patients.

We are very proud of the work we have done and use only our own patients' photographs in our marketing and advertising. All of the portraits in our office and on the website (www.titensordental.com) and in our ads are our own patients.

Authorization and release:

I hereby authorize Dr. Titensor to use photos of my face, jaws, and teeth. I understand that the photos may be used as a record of my care and may be used for educational purposes in lectures, demonstrations, and advertising. (Including website, magazines, phonebooks, television) and professional publications. I further understand that if my photos are used in any way described above that my name and identifying information will be confidential. I do not expect compensation, financial or otherwise for use of these photos.

X-ray Information

X-rays provide invaluable information to Dr. Titensor for diagnosing and treatment planning. To provide a comprehensive examination, x-rays are required. There are a variety of x-rays; each provides a variety of information. Dr. Titensor will recommend x-rays based on your individual needs. Our x-ray system is digital which results in the lowest possible exposure to radiation. We are able to view the films immediately.

Insurance companies limit the types and the frequency that some x-rays are taken. It is our responsibility to provide a comprehensive evaluation to you. By limiting the allowance of x-rays Dr. Titensor cannot present a complete evaluation to you. If there are x-rays recommended to you that are declined, we will require a signed release of liability from you stating that you fully understand that there are conditions that cannot be diagnosed without them.

I have read the information regarding x-rays and fully understand Dr. Titensor's philosophy. I understand that my insurance company limits frequency of some types of x-rays and if I am in a situation that requires services not covered, I will be responsible for the fee's associated with the service.

Our Financial Philosophy

Thank you for selecting our office for your dental care. It is important to us that the quality of our business services match the quality of your dentistry. We want the handling of your account, from the start, through final payments to be perceived as an extension of the dental care we provide you and your family.

Patients Role

As with any partnership, both parties have a role to play. Our role is to provide you with quality service resulting in successful treatment. In turn, your role is to pay for your treatment in a timely manner. Our team will work with you to determine financial arrangements that make sense for both of us. With an agreement made, our joint follow-through will result in a win for everyone. In developing a financial arrangement, it is important to remember your dental future. Our experience has shown that when an account lingers patients are likely to defer their appointments. It is discouraging to add new charges to an account when trying to pay off old charges. With this in mind, we will concentrate our efforts on clearing your account in as short amount of time as is comfortable for both of us.

Regarding Insurance

We will gladly file dental claims for your treatment once your coverage and benefits have been verified. We ask all patients to complete our Patient Information Packet before seeing the doctor as that ensures we have obtained the correct information to better serve you in regards to your benefits. Your estimated co-pay and deductibles will be collected as treatment progresses. These numbers are only estimates, as your insurance company is unable to provide exact information to us because your insurance policy is a contract between you and your insurance company. We are not a party to that contract. Also for this reason, if your policy is based on a fee schedule, you will need to provide our office with a copy of that schedule. We may accept assignment of insurance benefits, however the balance is your financial responsibility regardless of what insurance doesn't cover. We ask that you provide us with complete and accurate insurance information so we may file to your insurance company. If your insurance company has not paid on your claim within 45 days, the full balance will automatically be transferred to you and will be due upon billing.

Yes, please file a claim to my insurance provider on my behalf.

No, I DO NOT want you to file a claim. I will pay in full and file my own claim.

What is your preferred method of payment? _____

WE ACCEPT CASH, CHECK, VISA, MASTER CARD, DISCOVER AND AMERICAN EXPRESS

WE OFFER ACCESS TO EXTENDED PAYMENT PLANS WITH CREDIT APPROVAL

6

I understand that any unpaid balance after 60 days is charged a yearly finance charge of 18%. I further understand that this finance charge is equal to 1.5% of my outstanding balance per month. I understand that if my account reaches collection status (90 days) and I make no effort to pay off my account, my account will be assigned to a collection attorney or agency. If Dr. Titensor must take additional steps to collect my account, I will pay ALL cost of collection, including court cost and attorney's fees incurred by Dr. Titensor.

Thank you for reading our Financial Alliance. Please let us know if you have any questions or concerns. I have read the Financial Alliance. I understand, accept and agree to this Financial Alliance.

Facts You Should Know About Your Insurance Benefits

Dental insurance has become a major factor in helping people obtain necessary dental treatment. We feel our patients deserve the best in dental treatment with the maximum in dental benefits and we would like to share some general facts about dental insurance.

FACT # 1.

Were you aware that dental insurance is not meant to be a PAY-ALL? It is only meant to be an aid to you, THE PATIENT. When making decisions about your dental health, who do you want to aid you in your decision-making: the insurance business who only wants to make a profit, or someone who has only your well-being as their top priority?

FACT # 2.

Did you know that many plans tell their insured (YOU) that they will be covered “up to 80% or up to 100%”? In spite of what you’re told, most plans cover about 50%-60% of an average fee that is set by the insurance carrier. Some plans pay more—some less. Were you aware that the amount your plan pays is determined by how much your employer paid for the plan? Unfortunately, the less money paid for the plan, the less benefit you will receive.

FACT # 3.

The insurance company should say: “our benefits are low for your plan”. Remember, you get back only what your employer puts in, minus the profits of your insurance company. Many insurance companies tell insured members that their doctors’ fees are “above the usual and customary fees”, which may lead the patient to believe that they are being overcharged. Guess who sets those fees? The Insurance Company!

FACT # 4.

Did you also know that many routine dental services are NOT covered by insurance policies? Many services are “underwritten with restrictions or no coverage” due to how much the employer wants to spend on the benefit plan.

FACT # 5.

We hope that you will be happy with our services and the quality of dentistry that you deserve and will receive from our practice. Fortunately for our patients, we will not allow any insurance company to dictate the fees or compromise the quality of care you will receive from our practice. We provide a service for a fee and will help you to maximize your dental benefits. To ensure the ultimate oral health of all of our patients, we cannot take responsibility for what insurance carriers will or will not pay.

Please do not hesitate to ask any questions about your benefits with our experts. We want you to be comfortable in dealing with these matters and we urge you to consult with us if you have any questions regarding our services. As a courtesy to you, we will fill out and file insurance claims for your dental services.

If you have any questions or concerns regarding your insurance coverage, we will be happy to help you contact your insurance carrier directly, regarding the specifics and details of the plan your employer has purchased on your behalf.
